UNIT OF SYNTHESIS OF THE PROGRAM /4^o year of Secondary

Card 1: Exposition

Group work

The students of 4^o year will prepare an exposition for they themselves, exposition that will have to be called:

THE YOUNG PEOPLE AND DRUG CONSUMPTION

It will consist with 4 big sheets of papers, sufficiently large so that can be seen and read comfortably. Once the exposition prepared could be invited the parents of these students that they visited.

Included in each one of the big sheet of papers:

- 1- What there is to know about drugs:
What is drugs, dependency, tolerance
Clasificación de las drogas

- 2- Drogas most consumed in our municipality by young people:
- which are they:
- positive effects
- negative effects
- risks of the consumption
- how to avoiding these risks and what solutions it give to us

- 3- Activities for the occupation of the free time for young people, from an exhaustive listing of all those that have appeared throughout the previous courses

- 4- Where to go:
- To ask for information
- In the case of requiring attention to have some problem with Consumption of some drug

Card 2: **Elaboration of slogan**

Group work

The students of 4^o year will participate in a contest of “slogans” to make prevention of the drug consumption in the school.

The winning slogan (by voting of all the students of 4^o year class) will be published thru the whole school during the next school year.

Before thinking and writing your slogan, **chooses the objective of their meaning.** The sections that come next will be able to help you.

To warn that do not try that drug or all drugs

To alert about the dependency risk

To inform about the negative effects of consumption

To give alternatives to consumption (things which are possible to be done without drugs, different ways to enjoy)

Card 3: **The vote**

Group work

This card will help you to choose the best slogan for the whole school for the next course, slogan that a classmate or yourself have thought.

Mark with a cross those criterions that join up the slogan that you have chosen

They slogan that you choose has to have the most of these criteria:

It talks about the most consumed drug or that causes more problems between the young people.

The young people can felt identified.

It gives a credible message, that adapts to the reality and that con reach

It is positive does not condemn the consumer and is not alarmist.

It is easy to remember.

My vote is for slogan:
